

Thematic challenges

Engage 2, the new Knowledge Transfer Network of SESAR3, has launched its first call for thematic challenges to support the upcoming calls for PhDs and catalyst project fundings.

Deadline for submission:
31st October 2023.

At the heart of Engage 2 lies the pursuit of new ideas, not already included within the scope of an existing SESAR project, to bring changes in the ATM landscape.

The thematic challenges, combining applied and exploratory research, are the main tool to identify crucial aspects in ATM, thus setting the stage for new topics in the future SESAR calls.

**Don't miss the opportunity:
scan the QR-code and submit your ideas!**

The first call for Thematic Challenges is now open, and you have until October 31st to make your voice heard.

Each thematic challenge will be complemented by a thematic workshop and dedicated sessions at SESAR Innovation Days conferences.
